

## Hydromer, Inc. Enters into a Supply and Support Agreement for Nelaton Catheter Coatings with Confort Healty Care

Thursday September 6, 2007 12:44 pm ET

BRANCHBURG, N.J.--(BUSINESS WIRE)--Hydromer, Inc. (HYDI.OB - OTC BB; HDO - BSE), announces that it has entered into a Supply and Support Agreement with Ay Tibbi Cihazlar, a Turkish Medical company that manufactures and sells ostomy care, wound care and catheters. Under the terms of this annual self renewing agreement, Hydromer will supply Hydrophilic coating solutions to Ay Tibbi Cihazlar's Confort Healty Care (<http://www.confortostomi.com>) subsidiary for use on their Nelaton catheters. Nelaton catheters are short term urinary drainage catheters. The use of the hydrophilic Hydromer coating will serve to enhance the ease of catheter placement and removal, thus minimizing patient discomfort.

In addition to having placed an initial order for our Hydromer coating solution, our client is to make quarterly Support Payments to Hydromer that are based on a percentage of their sales revenue once they launch this product.

According to Martin von Dyck, Executive Vice President of Hydromer, Inc., "This is now our third such agreement to provide Hydromer coating technology for the hydrophilic coating of Nelaton catheters." Adding "Use of this type of urinary catheter is continuing to grow around the world and we are pleased to be one of the key providers of lubricious coating technology to this marketplace."

Hydromer, Inc. is a technology-based company involved in the

research and development, manufacture and commercialization of

specialized polymer and hydrogel products for medical device, pharmaceutical, animal health, cosmetic, personal care, and industrial

uses. For the latest information about Hydromer, Inc. and its
